THK’s CSR Policy

In an aim to increase our long-term corporate value and create an affluent society through our business activities, our CSR Policy is founded on our Corporate Philosophy, Corporate Basic Policies, and Action Charter.

Our product development, which is centered around our LM Guides, forms the core of our efforts to follow our Corporate Philosophy and contribute to the creation of an affluent society. As a company focused on creation and development, it is crucial that we develop new products with high added value and continue to create new markets. To do so, we must succeed in all elements of the “spiral of improvement”: new ways of thinking, technology development, and high quality.

We hope that this CSR Report provides insight into our efforts to create numerous spirals of improvement.
