简介

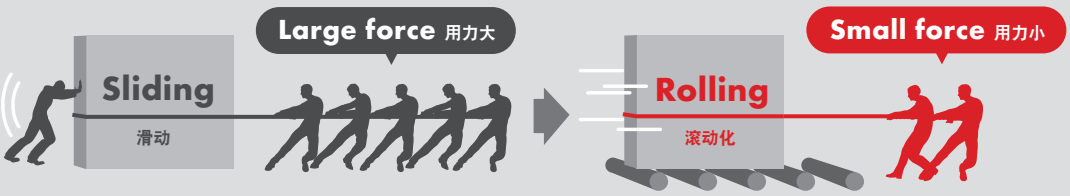
THK

Innovative products that enrich society

向全球提供创新产品、给社会带来新风、为创建富裕社会贡献力量。

THK was the first company in the world to develop the *linear motion system*, which is based on an original concept and innovative technology. Today, linear motion systems have been adopted for a variety of industrial applications as machine components vital to the mechatronics sector. More than a century ago, bearings brought rolling technology to commercial rotary components, but the prevailing wisdom was that it would be difficult to do the same for linear components. The linear motion system developed in 1972 was the first product in the world to shatter that barrier. By utilizing rolling motion to produce linear motion in machinery, linear motion systems made it possible to design equipment that is high-precision, high-speed, labor-saving, and eco-friendly because of the improved efficiency.

All of THK's technologies infuse every type of mechanism with smoother and more accurate movement, driving innovation around the world. Guided by our corporate philosophy of *providing innovative products to the world and generating new trends to contribute to the creation of an affluent society*, we anticipate future trends and use our original technology and expertise to strive for new innovations.



THK以创新的构思和独有的技术在世界上率先开发了“直线运动系统”， 实现了机械直线运动部位的“滚动化”。旋转运动部位的“滚动化”在100多年前随轴承的问世而得以商品化，但直线运动部位的“滚动化”一直被认为难度太高不可能实现。1972年，“直线运动系统”的问世，打破了不可能实现的说法。高精度化、高速化、省力化得以实现，并且通过提高效率使得节能型的装置设计也成为可能。

“直线运动系统”作为机电行业中不可或缺的机械要素零部件，目前应用于所有的产业中。正像它所代表的，THK的所有技术都在为各种机械装置的轻快而精确的“动作”不断努力，为世界带来各种各样的革新。THK秉承“向全球提供创新产品、给社会带来新风、为创建富裕社会贡献力量”的经营理念，将尽早把握时代动向，以独有的技术和技巧向新的变革不断发起挑战。

THK Toughness High Quality Know-how

Expand Business Domains

事业领域的扩大

THK is committed to developing its business through three growth strategies: expanding the geographical range of its operations through *full-scale globalization,* broadening the range of its product applications through the *development of new business areas,* and utilizing technology such as AI and robots as well as providing services that support the rapid adoption of the IoT in manufacturing through a *change in business style*.

THK以扩大地理范围以及用途领域为宗旨进行“全球展开”和“开拓新领域”，
围绕人工智能（AI）和机器人进行科学技术的彻底活用，在制造领域迅速扩展物联网（IoT）服务，
以此为主轴来支持作为成长战略支柱的“商业模式的变革”，全力推进事业的发展。

A development structure that supports THK's ingenuity for further, deeper, faster innovations

As a company focused on creation and development, THK has developed a wide array of products to contribute to the advancement of industry. In doing so, we have accumulated technical expertise that fuels our growth.

We are working to increase our development speed. This will allow us to broaden the range of our product applications as we set our sights five to ten years ahead and develop next-generation products.

We are also strengthening our development capabilities on a global scale to develop products that meet local needs.

更远、更深、更快。
支撑THK独创性的
开发机制。

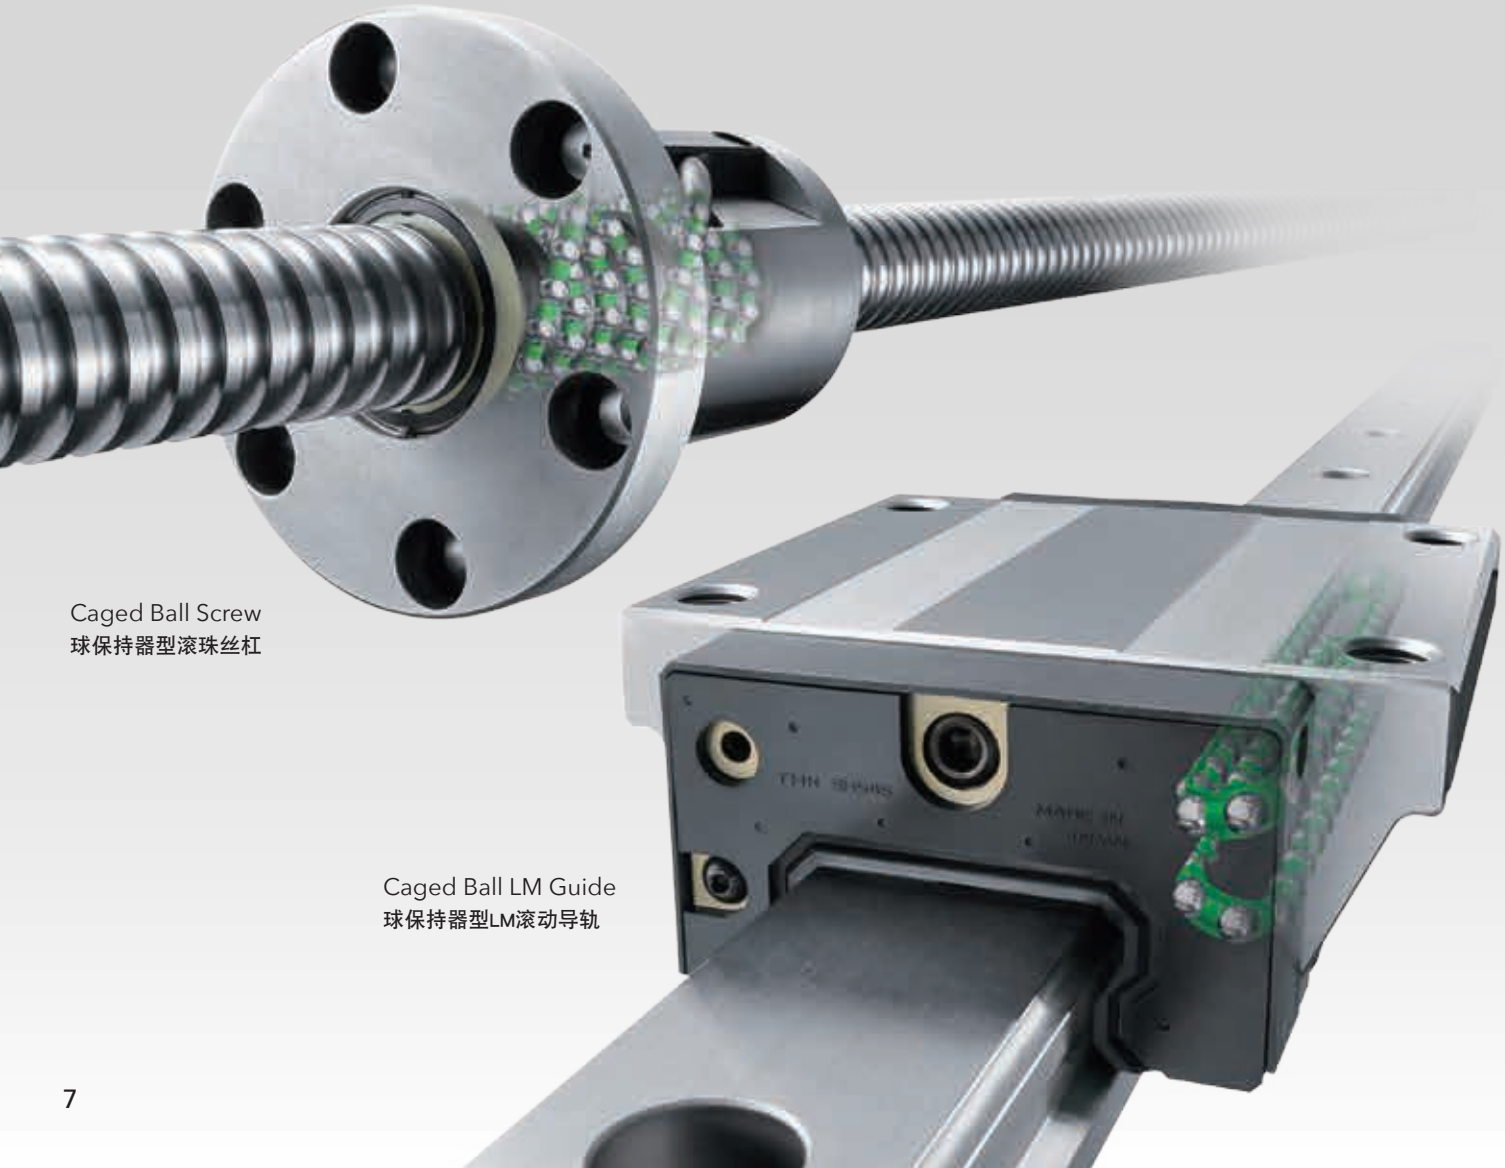
作为创造开发型企业，THK在开发各种各样的产品，为产业发展作出贡献的同时，也在积累成长的源泉——技术实力。

以技术中心（东京）为主轴，以扩大用途为目标，在努力提升开发速度的同时不断推进适用于5年后、10年后的下一代产品的开发。

强化全球规模的开发能力，推进适应当地需求的产品开发。

Honed over time, THK's core technology has been adopted across industries

THK has been cultivating its technical expertise ever since 1972, when it developed the LM Guide and other linear motion systems. Even now, that core technology continues to redefine industry standards and enables us to satisfy an ever broader range of needs. This system takes the rotary principles of deep-groove ball bearings, the most economical and easy-to-use ball bearings, and applies them to linear motion. By using balls and rounded grooves of approximately equal diameters, we have been able to change how the ball and groove contact one another, moving away from point contact and closer to plane contact. As a result, the permissible load of the product has increased by approximately 13 times and its service life by 2,200 times as compared to traditional linear motion bearings using balls of the same diameter.



Caged Ball Screw
球保持器型滚珠丝杠

Caged Ball LM Guide
球保持器型LM滚动导轨

千锤百炼、用途广泛的THK核心技术。

自1972年“LM滚动导轨”等直线运动系统的开发以来，THK的技术实力得到了长年的积累。直到今天，这些核心技术还在不断孕育出新的行业标准，满足更多、更广泛的需求。在直线运动系统中应用了回转轴承中最经常使用的、经济性较高的“深沟球轴承”的回转理论，将滚珠作为回转体，通过在滚动面上设置与滚珠外径相近的R状沟道，使得滚动面与滚珠之间从“点接触”变为近似“面接触”。与传统的直线运动轴承相比，在滚珠外径相同的情况下，容许载荷约增加到了13倍，寿命也达到了2,200倍。

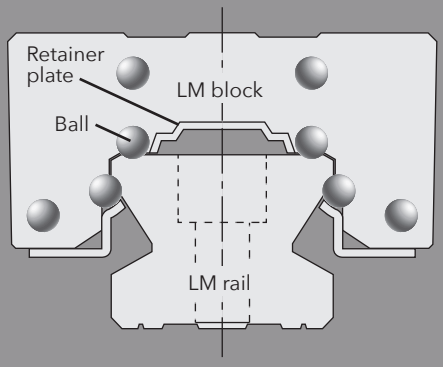
Contact with a curved surface

平面接触时
Contact with a flat surface



Cross-sectional view of the LM Guide

Caged ball technology was developed as a result of combining THK's technology and expertise. This technology, which enables higher precision and service life in linear motion systems, does not simply improve mechanical performance, but also prevents the accumulation of dust particles and reduces required maintenance. It adds to the energy efficiency of linear motion systems, helping us make strides in developing eco-friendly products.

凝聚了THK的技术和经验的保持器技术，实现了“直线运动系统”的高精度化并延长了寿命。该保持器技术不仅能够提升机械性能，而且还具有降低发尘量和减少维护的作用。直线运动系统所具有的节能效果加上该保持器技术，使得本公司的产品不断向“环保型”产品进化。

THK's production equipment and quality control pave the way for greater uniformity and precision

In addition to our product lineup, what we provide our customers with is *quality*. It is because THK maintains consistent high quality in its products, regardless of where they are manufactured, that customers have come to place so much trust in THK today. We believe this trust in our quality is our greatest asset and management resource. Moving forward, we will continue to equip our production facilities around the world with cutting-edge production equipment, conduct rigorous quality control, and deliver products with the best quality to our customers.

更均一、更严格，
THK的生产设备、品质管理。

THK交到客户手中的除了产品外还有“品质”。无论是在世界的何处生产的THK的产品，都保持均一的高品质，正因为如此，THK才赢得了客户的信赖。THK始终认为客户给予产品的信赖才是我们最大的财富和经营资源。从今以后，THK仍将一如既往地为世界各地的生产基地配备最尖端的生产设备，执行最严格的品质管理，为广大的客户们提供最高品质的产品。

A streamlined and stable production structure that serves markets around the world

In order to meet the needs of markets worldwide, THK manufactures products in Japan, the United States, Canada, Mexico, Germany, France, Ireland, the Czech Republic, China, South Korea, Vietnam, Thailand, Malaysia, and India. We believe the best place to manufacture products is where there is demand, and we immediately provide the products desired by each market. With cutting-edge equipment showcasing expertise that can only be found at THK, we are expanding our use of automation, labor-saving technology, and robotization. We supply products promptly while maintaining a consistent level of high quality around the world.

全球化制造系统

面向全世界市场
迅速而稳定的生产供应体制。

为满足世界各地的市场需求，THK在日本、美国、加拿大、墨西哥、德国、法国、爱尔兰、捷克、中国、韩国、越南、泰国、马来西亚、印度等地进行生产。从“当地生产才是最佳生产”的思路出发，尽快投放市场所需求的产品。

我们还配备凝聚了THK独有的经验技术的最尖端设备，以推进自动化、人力节省和机器人化。同时实现了迅速的产品供应和全球标准的高品质。

物联网服务

面向制造业的IOT服务

(IoT Service for the Manufacturing Industry)

The IoT is expanding throughout manufacturing at a rapid pace.
Yet even as factories are in a hurry to implement this technology, many struggle with operational hurdles. THK offers an IoT service that gets to know your environment and works with you to overcome those barriers. We bring in our extensive know-how as a top manufacturer of machine components to help you achieve your IoT vision.

在制造现场迅速扩展物联网（IoT）的应用。但是即使快速引进，在实际应用中还有很多遇到障碍的情况。THK提供的物联网服务，贴近客户环境，与客户共同克服障碍。作为一流的机械元件制造商，希望通过运用我们多年累积的专业技术，与客户一起感受引进物联网技术后带来的效果。

Working toward a New Mobility-Oriented Society

Ever since THK was founded, we have developed, manufactured, and sold components for the automotive and other transportation industries. Our automotive parts, especially our link ball products used in stabilizers and our ball screws used in electric brakes, are highly trusted by our customers. We develop components with advanced technology for the growing EV market by combining THK's core linear motion technology with the production and sales capabilities of THK RHYTHM AUTOMOTIVE, which does business with major automotive manufacturers around the world. Through these efforts, we will propose new concepts for the future of mobility.

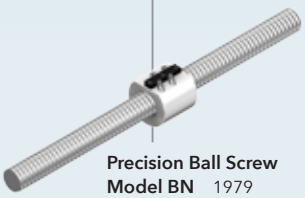
History of constant creation and evolution

THK commercialized a linear motion system for the first time in the world in the form of the LM (Linear Motion) Guide in 1972. The LM Guide has since achieved higher accuracy, higher speed, and labor savings for devices such as manufacturing equipment, enabling machine performance to be drastically improved. Currently, the LM Guide is also used in the fields of seismic isolation and damping systems, robots, transportation equipment, medical equipment, and renewable energy. In this way, the LM Guide is used in an extensive range of applications.

Link Ball - Model RBI/RBL 1971
杆端球面接头 RBI / RBL型 1971年



Precision Ball Screw
Model BN 1979

永不停歇的创新与发展

1972年，THK成为世界上第一家开发了直线运动（LM）导轨并使之商业化的公司。这使得之后的机械实现了高精度化，高速化，省力化，大大提升了机械的性能。如今，直线运动（LM）导轨还被应用于抗震和地震隔离装置以及机器人，交通运输，医疗器械，再生能源中，使用范围正不断地扩大。

Corporate Outline

Outline

Company Name	**THK CO., LTD.**
Headquarters	2-12-10 Shibaura, Minato-ku, Tokyo 108-8506 Japan Phone +81-3-5730-3911 www.thk.com
Establishment	April 1971
Capital	¥ 34,606 million (Current as of December 31, 2023)
Chairman/CEO	Akihiro Teramachi
President/COO	Takashi Teramachi
Number of Employees	4,068 (consolidated total: 13,360) (Current as of December 31, 2023)
Activities	1. Manufacture and sale of various bearings and machine components 2. Manufacture and sale of machine tools and their parts 3. Manufacture and sale of automotive, bicycle, and transportation equipment parts 4. Manufacture and sale of industrial robot and related parts 5. Manufacture and sale of instrument and control equipment parts, electrical and electronics equipment parts, and related parts 6. Manufacture and sale of hydraulic and pneumatic equipment and related equipment 7. Research, development, production, and sale of computer software 8. Development of building construction methods, design and construction of buildings, and manufacturing and sale of equipment parts related to these 9. All activities associated with the above items

Number of patents/utility model rights with continuing rights (as of December 31, 2023)

In Japan	Number of registered patents:	651
	Number of patents laid open:	75
	Number of registered utility models:	1
Outside of Japan	Number of registered patents:	1,257
	Number of patents laid open:	294
	Number of registered utility models:	2

Please refer to the THK Integrated Report for the organization structure.

概　要

公司名称	**THK株式会社** **THK CO., LTD.**
地　　址	邮编108-8506 东京都港区芝浦2-12-10 TEL03-5730-3911 http://www.thk.com/
成立日期	1971年4月
资　　本　　金	34,606百万日元（截止到2023年12月31日）
董事长会长CEO	寺町 彰博
代表董事社长COO	寺町 崇史
员工人数	4,068人（母子公司合计13,360人）（截止到2023年12月31日）
业务范围	1．各种轴承和机械元件的制造、销售 2．机床及其零部件的制造、销售 3．汽车零部件、自行车零部件及运输用机械零部件的制造、销售 4．工业用机器人及其相关零件的制造、销售 5．测量控制设备部件、电气、电子应用设备部件及其相关设备部件的制造、销售。 6．液压、气压设备及其相关设备的制造、销售 7．计算机软件的研究、开发、制作、销售 8．施工方法的开发和建筑设计施工及其相关设备部件的制造、销售 9．前述各项附带的一切相关业务

专利、实用新型专利权数量（截止到2023年12月31日）

日本国内	专利注册数量	： 651
	专利申请公开数量	： 75
	实用新型专利注册数量	： 1
日本国外	专利注册数量	： 1,257
	专利申请公开数量	： 294
	实用新型专利注册数量	： 2

Our Mission

只有我们才能够做到，
我们应该做到的事情。

THK

Toughness High Quality Know-how

THK is a company focused on creation and development that uses original concepts and technology to propose new mechanisms.

Since our founding in 1971, the world's first LM Guide and other products developed by THK have contributed to the development of industry by enabling machines to achieve high precision, speed, and rigidity while also extending service life. The name THK is an acronym of the things we promise to our customers: Toughness (the delivery of tough and durable products), High Quality (the delivery of products of the best quality in the world), and Know-how (contributions to the development of new expertise). These values are our brand, and every single employee holds them dearly.

As a company focused on creation and development, in accordance with our corporate philosophy of providing innovative products to the world and generating new trends to contribute to the creation of an affluent society, we have expanded our business domains through the three main pillars of our growth strategy: expanding our geographical range through *full-scale globalization;* purposefully expanding our domains through the *development of new business areas;* and fully utilizing AI, IoT, robots, and other technologies in a variety of ways through a *change in business style*. Furthermore, while moving forward with these strategies, we are transitioning into a manufacturing and innovative services company that goes beyond simply creating things, expanding our business to include services from before to after the sale and genuinely contributing to our customers' operations.

As we enter into a time when the business environment changes rapidly, we will move forward with various initiatives to achieve medium- to long-term corporate growth and the creation of a sustainable society, and in doing so, satisfy the expectations and trust of our stakeholders.

Chairman/CEO **Akihiro Teramachi**
President/COO **Takashi Teramachi**

THK是一家以独创性构思和独有技术为世界带来最新机械装置提案的创造开发型企业。

THK自1971年成立以来，通过全球首发的LM滚动导轨等产品，使机械具有了更高精度、更高速度、更高刚性以及更长寿命，全力助力工业的发展。“THK”公司名称是由“Toughness”（提供结实耐用产品）、“High Quality”（打造全球一流品质产品）、以及“Know-how”（助力创造全新知识技术）的首字母组成，这三个单词不仅是我们对客户的承诺，更是我们公司的品牌，体现了公司全体员工的重要价值理念。

迄今为止，作为一家以开发创新为导向的公司，THK一直秉承“向全球提供创新产品、给社会带来新风、为创建富裕社会贡献力量”为经营理念，以地域性领域扩张的“全球扩张”、用途性领域扩张的“开拓新领域”以及在各领域充分运用AI、IoT、机器人等科技的“业务方式转型”作为公司的发展战略支柱，不断深化拓展业务领域。在推进这些举措的过程中，我们不仅为客户提供制造产品，也将售前以及售后的一系列服务纳入到业务体系当中，寻求向“制造服务业”转型，做到真正服务于客户。

在商业环境复杂多变的大时代背景下，我们制定了各种措施，在推动公司中长期发展的同时，也助力于打造可持续性社会，不辜负利益相关方的期待与信任。

董事长会长CEO　**寺町彰博**
代表董事社长COO　**寺町崇史**
