

THK Manufacturing of America, Inc.

Project Engineering Position Opportunities

Our company name "THK" stands for "**T**oughness," "**H**igh Quality," and "**K**now-how." We aim to contribute to the improvement of society and development of industry by focusing on these three principles in our technology, development, and product manufacturing processes.

THK Manufacturing of America is a leading manufacturer of Linear Motion Guides, ball screws, bearings and joints, which are used in various types of industrial, robotic and production machinery. THK holds an outstanding competitive advantage over other manufacturers of Linear Motion Systems due to its ability to innovate and integrate highly technical manufacturing solutions.

Looking for a great opportunity? THK has openings for engineering personnel with mechanical, electrical or industrial engineering backgrounds interested in a career in manufacturing engineering and project management. Duties include new electrical and mechanical equipment modifications, robotic automation, production start-ups, layout analysis and efficiency/quality improvements.

Requirements

The following qualifications are desired:

- Coursework in industrial, mechanical, or electrical engineering fields
- Interest in hands-on engineering – modifying, designing, building advanced machinery
- Beginning CAD, working knowledge of Microsoft Office Suite
- Ability to work independently, in a team setting, and with people with various skills, backgrounds, cultures, and English language ability
- Willingness to learn and execute projects from start to completion and from design to installation.

Candidates should respond via e-mail to: alower@tma.thk.com with ENG in the subject heading. Individuals are also welcome to apply in person at our Hebron facility.
